

GigaPIX

Improving internet speed since 1995

Benefits of GigaPIX

Performance improvement

Allows direct traffic exchange between members, leading to greater efficiency

Cost reduction

Avoids the use of more expensive international calls

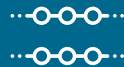

Experience improvement

Creates greater proximity between an operator's users and the content they access

Greater resilience

Availability for different destinations allows you to have greater control over the infrastructure

Better connectivity

GigaPIX aims to improve connectivity between the various members connected to it

Non-profit

Free of charge up to 4x 10Gbps. Non-profit or commercial
